💡 **<u>Insights :</u>**

1. USA leads with $25M in sales (21% of total) — Canada close 2nd at $24.9M

2. Paseo is most profitable product ($3.04M, 18% of total profit)

3. Medium discount band offers best balance: $5.6M sales at 61% profit margin

4. Government segment drives 35-40% of total revenue and takes fewer discounts than commercial segments, making it the most profitable customer type.

5. October is peak sales month ($12.4M)

🚀 **<u>Recommendations</u>**

1. Geographic : Double down on North America (USA + Canada = 42% of sales). Consider expansion in Mexico (room to grow)

2. Product : Increase Paseo inventory and run promotions. Review Carretera pricing (lowest profit product).

3. Discounts :
Replace all 'High' discounts (>20%) with 'Medium' (10-15%) to protect margin

4. Segment : Government segment drives 38% of total revenue with the lowest discount usage → Most profitable customer type (16% margin vs 13% enterprise)
